

Solutions & Resources: Investment Management Services

At Domani Wealth, we strive to see tomorrow the way you do. That's why we start each conversation by asking, "What does your tomorrow look like?"

To answer that, we've compiled some thoughtful questions to help you plan for the future and to gain insight on the services and experience we offer as an independent wealth advisory firm. Because at Domani Wealth, our focus is to lead you to a tomorrow filled with possibilities.

Are your investments working to accomplish your financial goals?

Whether you desire an early retirement, need income in retirement, or want to provide a generous legacy to your family, the right mix of investments will help you accomplish your goal.

The team at Domani Wealth offers the expertise to help you navigate that path. The process begins with in-depth conversations.

Our advisors will talk with you about personal and family financial goals, as well as your feelings about risks and expectations. These discussions will help us develop a customized investment plan designed to meet your needs. They also allow our experienced team of financial professionals the opportunity to explain your options and answer your questions.

When you choose investment management and monitoring, the Domani Wealth team will:

- **Evaluate investment strategies through rigorous due diligence and monitoring**
- **Recommend select securities and other financial products to help meet your goals**
- **Regularly monitor investments and securities selected in your portfolio**
- **Assess new investment opportunities to determine if they meet your needs**
