

Derek J. Hinebaugh
Associate Portfolio Manager
derek.hinebaugh@domaniwealth.com

His intellectual curiosity builds out portfolios.

For Derek, a great workday would include working on proposing a detailed investment portfolio for a client.

In his role as Associate Portfolio Manager, he spends his days evaluating investment options, weighing risk levels, and adjusting client portfolios to stay aligned with their long-term goals.

He understands different scenarios of client situations and how to navigate their financial status to continue down the path they have chosen. Whether examining portfolio investments for tax savvy strategies, diversity, or longevity in a volatile market, we depend on Derek to help move clients toward their financial goals.

Domani Wealth's core value of accountability most resonates with him, he says. "Everyone can be held accountable regardless of their responsibilities, and I'm always ready to learn more."

He enjoys his work on client portfolios as each day is different than the day before and he uses his innate curiosity. Derek is known for adding his own analysis to tasks he's completing.

In his free time, Derek enjoys working out and once, he went skydiving in the desert outside Las Vegas. His prized possession is his Champion's Creed Marble frame.
